

HALOGEN LIGHTING FOR MACHINERY SERIES HST WITH TRANSFORMER IN BASE

A high quality product with metal joints. Transformer in ferrite incorporated into the base. The elegant design of the head with cavity allows excellent heat dissipation to give extended lamp life. Long life halogen lamps resistant to vibration (lamp cap. PK22s). Arms in extruded treated aluminium. Extremely light-weight. Complete with power cable. Switch fitted to handle on head. For models without switch add suffix S to article number.
